

## Team Contract

Team Name: D-Viz IPL Analysis

Date: 10/01/2021

**GOALS:** What are our team goals for this project?

What do we want to accomplish? What skills do we want to develop or refine?

1. Understanding the use of datasets, their data types and how crucial it is to visualize the data to understand their datasets and to not just rely on summary statistics.
2. Getting exposure to a few Data Visualizations techniques using pandas, matplotlib, numpy, scipy, seaborn, jupyter, jupyterlab.
3. Gaining expertise in python programming and getting familiar with various plots or graphs using the libraries mentioned above.

**EXPECTATIONS:** What do we expect of one another in regard to attendance at meetings, participation, frequency of communication, the quality of work, etc.?

1. We expect all the team members to actively participate in any team meetings, discussions, quality of work and should contribute equally to the project.
2. Each and every team member should understand the project from scratch to end.

**POLICIES & PROCEDURES:** What rules can we agree on to help us meet our goals and expectations?

1. Weekly Discussions and project updates at least 2-3 times in a week.
2. Equally distributing the work among team members so that everyone gains expertise on all the methods and techniques.

CONSEQUENCES: How will we address non-performance in regard to these goals, expectations, policies and procedures?

We can agree on getting less grades if the above rules were not followed by any team members.

We share these goals and expectations, and agree to these policies, procedures, and consequences.
